# COMMERCIAL ROOFING EXPERTS

When it comes to commercial roofing, we work with all types of roofs - flat, steep, modified bitumen, foam & spray, asphalt, metal, and single ply roofs (ex: Thermoplastic Polyolefin (PRO) or Ethylene Propylene Diene Terpolymer (EPDM)).

## WHAT OUR CUSTOMERS SAY

"PK Contractors did an awesome job helping with our interior/exterior project. Always mindful of our budget and the quality of work was outstanding! Highly recommended!!!"  
-Nathan S.

"Great crew, polite and professional. Great people to work with. Not a single nail or piece of trash left behind. Will reach out to them for all other needs that they provide."  
-Janna E.

"The entire company was amazing to work with! Very professional, hard working and and got the job done right and well the first time. They continued to check on the progress and efficiency as well as the proficiency of the project throughout the time frame they were doing our siding! They kept us well informed of the progress And any delays that we ran into. Their follow up is amazing and I feel like I have their support a 100% if I have any questions or concerns ever. We will definitely be calling them when we need a new roof!!!"  
-Jamee

"These men were punctual, professional, and did an excellent job!"  
- Eric

## BUILDING TRUST WITH QUALITY WORK

### **Customized Plan**

We listen to you & recommend a customized plan focused on how to best serve your needs.

### **Expertise**

With 40+ years of combined experience, only first-tier crews are assigned to jobs.

### **Attention to Detail**

Attention to the small stuff & keen project management makes us stand out from the rest.

### **Customer Service**

We treat our customers how we would like to be treated. On-budget, on-time & quality services.
